

Hand-Penned Petals Week – Project 4 @LetItSnowStamping.com

Supplies:

- Hand-Penned Petals stamp set
- Highland Heather cardstock
- Hand-Penned Designer Series Paper
- White Crinkled Seam Binding Ribbon
- Tape
- Basic White cardstock
- Highland Heather, Daffodil Delight, Mint Macaron, and Pool Party ink pads
- Double Oval Punch
- Stampin' Dimensionals

Instructions:

Start with a Highland Heather card base measuring 8-1/2"x5-1/2", scored and folded at 4-1/4" and a piece of DSP measuring 4"x5-1/4".

Cut two 6" lengths of ribbon and two 4" lengths of ribbon. Set aside the 4" lengths.

Fix the two 6" lengths of ribbon as shown on the photo below.

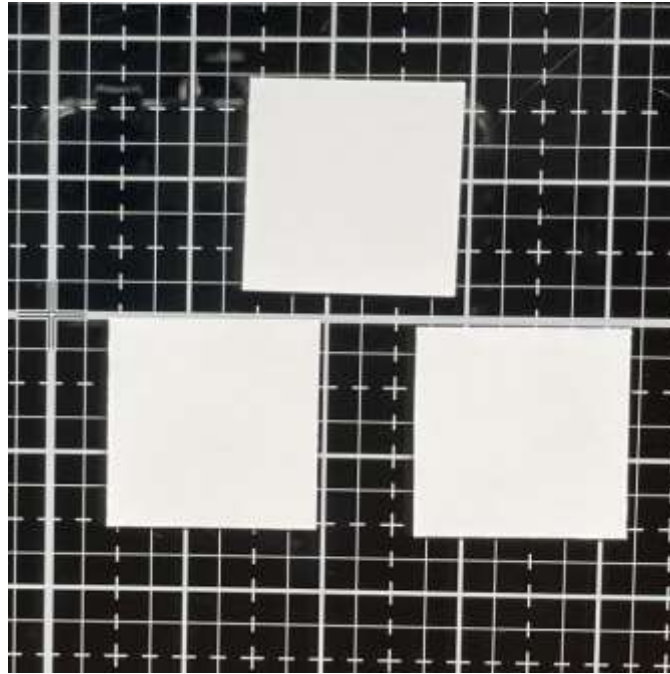

Adhere the ends of the ribbon on the backside of the DSP with tape. Add Seal Adhesive to mount the DSP to the card base.

Mount the DSP to the card base.

From the Basic White cardstock, cut three squares measuring 1-1/2"x1-1/2". Though it is not pictured, also cut three squares from Highland Heather cardstock measuring 1-3/4"x1-3/4" for matting.

Stamp floral stem images using Mint Macaron. Add blossom stamp using Highland Heather, Pool Party, and Daffodil Delight. Then mount the squares to the Highland Heather mats.

Align the Highland Heather blossom first as shown below in a diamond orientation. Do not adhere to the card base until you are sure the other two squares align correctly.

These are glued down using either Seal Adhesive or Multipurpose Liquid Glue.

Use the two 4" lengths of ribbon to make simple knots on the two lengths of ribbon secured to the card front. Slide them where you like. Here, I positioned one closer to one diamond and the other closer to the second diamond.

On a scrap of Basic White cardstock, stamp your sentiment in Highland Heather ink and cut out using the Double Oval Punch. Grab a Highland Heather cardstock scrap, punch out the scalloped matting using the Double Oval Punch. Glue both pieces together and mount on the card front using Stampin' Dimensionals.

What I love about this style of card, is that you can use any of the blossoms in the stamp set in the diamond squares, even if you only see a portion of the blossom. It creates a fun focal point for your card.
